

Virus Check & Removal

only
£34.99

**Have a virus you can't remove?
Bring your computer to your nearest
Novatech Computer store and one
of our fully trained and experienced
technicians, will scan your computer
for virus's and remove them.**

- Your system will be scanned for viruses
- If infected the viruses will be removed.
- Every endeavour is made to remove viruses without affecting your data, however it may be necessary to wipe your hard drive and reinstall your operating system to remove a virus. Customers will be contacted and asked what option they would prefer before any hard drive wiping takes place.

Novatech recommends that you install virus protection software

This service is available for all brands excluding Apple

Worry free Computing.
